

## High Shine Floor Finish

**Caution**  
Keep Out Of Reach  
Of Children.  
See Side Panel For  
Additional Precautionary  
Statements.

### Net Contents:

#### DIRECTIONS:

1. Remove all old waxes and finishes with a good quality stripper, AMRO's Low Odor Floor Stripper.
2. Rinse floor thoroughly and allow to dry completely. (A 1-2% vinegar solution in the final rinse may be used to neutralize the floor.)
3. For the best and longest-wearing results (especially on older and more porous floors), it is recommended to first apply a single coat of **High Shine** to act as a sealer.
4. Follow the above with 2 or 3 thin, uniform coats of product, using a lambs wool wax applicator. Product covers approximately 1200 to 1500 square feet per gallon. **IMPORTANT**—Be sure to allow one hour drying time between coats (more if high humidity is present).
5. Product dries to a tough, durable high sheen finish. For ultra-high gloss, **High Shine Floor Finish** can be buffed.
6. Maintain the floor using United 60 Concentrate; it cleans up dirt and absolutely will not harm the finish. **STRIPPING:** **High Shine** finished floors can be recoated up to ten times without stripping. **High Shine** dries clear and stays clear—even in bright sun it never yellows. Product should be removed using AMRO Low Odor Floor Stripper.

Never pour the residue left in the applying pan or bucket back into the original container, as this may contaminate the unused material. **STORE CONTAINERS IN AREA PROTECTED FROM FREEZING.** Keep containers tightly closed when not being used, to prevent evaporation.

**NOTE:** Product is ideal for use with the high-speed buffers.

### Batch#:

#### CAUTION:

Contains Diethylene glycol methyl ether (CAS# 111-77-3), Tributoxyethyl phosphate (CAS# 78-51-3) and Zinc ammonium carbonate (CAS# 38714-47-5). Do not take internally. Prolonged skin contact may cause irritation.

#### EMERGENCY AND FIRST AID PROCEDURES:

**EYES:** Immediately flush with plenty of water for at least 15 minutes. Get prompt medical attention.

**SKIN:** Wash with soap and plenty of water. Wash clothing before reuse.

**INHALATION:** Remove to fresh air. If symptoms develop, seek medical attention. If not breathing, give artificial respiration.

**INGESTION:** Get medical attention immediately. Unless advised otherwise by physician or poison center, induce vomiting by giving either syrup of ipecac followed by 2 glasses of water or by sticking finger down throat. Do not give anything by mouth if person is drowsy, unconscious or has no gag reflex.

An MSDS for this product is available through AMRO's website at [www.amroproducts.com](http://www.amroproducts.com), providing 24 hour access. Please read the MSDS carefully and follow all directions when using or handling this product. Never reuse empty containers. Incompatible materials may adversely react.

#### HMIS: SPECIFIC HAZARDS:

HEALTH-1 FLAMMABILITY-0 PHYSICAL HAZARD-0

**HMIS® III CODE:** 0=MINIMAL 1=SLIGHT

2=MODERATE 3=SERIOUS 4=SEVERE

**PERSONAL PROTECTION INDEX:** Gloves & Goggles
