Statements.

Net Contents:

Car Shampoo Concentrate provides great sudsing action to break through dirt and grime. Perfect for trucks, private fleets, fire and police departments.

DIRECTIONS:

For best results and to avoid streaking, do not wash vehicles when they are very hot or sitting in direct sun on hot days. Always spray hot surfaces with cooling water before applying shampoo.

For hand washing, always wash surfaces from the bottom, moving upward to avoid streaking. Rinse away dirt as it is loosened from the vehicle. Keep entire car wet as you work, giving it a final rinse just before drying.

For normal dirty surfaces, mix 1 oz to 2 oz. (29mL to 58 mL) of concentrate per one gallon (4 L) of water. Place concentrate in the container, fill with water, using full pressure to obtain maximum suds. Heavily soiled vehicles may require more concentrated cleaning solutions. After washing, towel dry vehicle.

When using hose end applicators, use 1 part of concentrate to 2 parts of water in the applicator bottle.

Made and Printed in U.S.A. 2NB21-13

Batch#:

CAUTION:

Contains synthetic detergent. May cause eye irritation.

EMERGENCY AND FIRST AID PROCEDURES:

EYES: Immediately flush with plenty of water for at least 15 minutes while holding eyelids open. Call a physician or poison center.

SKIN: Wash with soap and plenty of water for at least 5 minutes. If irritation persists, call a physician or poison center.

INHALATION: Remove to fresh air. If irritation persists, call a physician or poison center.

INGESTION: DO NOT induce vomiting. If conscious, give 2 glasses of water to dilute. Never give anything by mouth to an unconscious person. Get medical attention immediately.
