

BIO-Based Lift Station Maintainer

Caution
Keep Out Of Reach
Of Children.
See Side Panel For
Additional Precautionary
Statements.

Net Contents:

BIO-Based Lift Station Maintainer utilizes nature's resources to provide a powerful formulation.

- NPE-Free.
- Non-caustic.
- Non-corrosive.
- Contains no petroleum distillates.
- Deodorizes with a fresh citrus scent.
- Contains no chlorinated hydrocarbons.

The excellent solvency of this product cuts grease and slime from the sidewalls of the station while the fresh citrus scent deodorizes even the most malodorous facilities.

DIRECTIONS

Add sufficient material so that 1" (2.5 cm) or 2" (5.1 cm) of material floats on the surface of the water. This material will dissolve and solubilize grease accumulations in the lift station, as well as the grease accumulations on the side walls where it comes in contact.

Contact an AMRO representative for recommended weekly maintenance doses. The recommended maintenance dose (1/4 of your initial dose per week) is strictly a suggested starting point. Conditions of use and load requirements may cause this to vary widely.

IMPORTANT

Be sure float is solvent resistant and is set, so the water level never goes to the point where the station is completely pumped out. Enough water should always remain in the station, to keep this maintainer intact. Submersed pumps and wiring must be solvent resistant. This product will attack plastics, rubber, neoprene and soft materials. **DO NOT USE BIO-BASED LIFT STATION MAINTAINER IN A TURBULENT LIFT STATION.**

When using a metering pump with this product, you must use Viton® tubing.

Batch#:

CAUTION

Contains d-1,8 (9)-p-Menthadiene (CAS #5989-27-5). This product is combustible and should be stored in a cool place away from exposure to extreme heat and open flames. It may ignite and burn on heating above 110°F (43°C). Product may catch fire in use.

Harmful if swallowed. Avoid eye and skin contact.

EMERGENCY AND FIRST AID PROCEDURES

EYES: Flush with plenty of tepid water for at least 15 minutes while holding eyelids open. Call a physician or poison control center immediately.

SKIN: Wash with soap and water. If irritation persists, call a physician or poison control center.

INHALATION: Remove to fresh air. Apply CPR if needed. Call a physician or poison control center immediately.

INGESTION: DO NOT induce vomiting. Call a physician or poison control center immediately.

An MSDS for this product is available through AMRO's website at www.amroproducts.com, providing 24 hour access. Please read the MSDS carefully and follow all directions when using or handling this product. Never reuse empty containers. Incompatible materials may adversely react.
