

BIO-Based Grease Trap Maintainer

Caution
Keep Out Of Reach
Of Children.
See Side Panel For
Additional Precautionary
Statements.

Net Contents:

BIO-Based Grease Trap Maintainer is formulated with renewable resources from nature. Contains no petroleum distillates.

DIRECTIONS:

Use a sufficient quantity of product to provide approximately a 1" (2.5 cm) layer of the solvent on the surface of the grease trap. Each quart (946 mL) will cover 60 square inches (387 square centimeters) of surface with the depth so a grease trap one foot square (.1 square m) will require a little over two quarts (1.9 L) for the initial maintenance dosage. Thereafter add one pint (473 mL) per week for normal loading. Traps which carry heavy loads of fats, oils and greases, will require larger or more frequent maintenance dosages. **BIO-Based Grease Trap Maintainer** can be poured into the drain nearest the grease trap, or the grease trap cover can be removed, and product can be added directly to the trap. If the trap is heavily loaded with grease it is suggested a manual cleaning of the trap be done, before the initial dosage of product is added. Under normal conditions, the regular use of **BIO-Based Grease Trap Maintainer** should reduce the need for manual cleaning of the trap.

When using a metering pump with this product, you must use Viton® tubing.

Made and Printed in U.S.A. 2NB393-12

Batch#:

CAUTION:

Contains d-1,8 (9)-p-Menthadiene (CAS # 5989-27-5). This product is combustible, and should be stored in a cool place away from exposure to extreme heat and open flames. Harmful if swallowed.

EMERGENCY AND FIRST AID PROCEDURES:

EYES: Immediately flush with plenty of water for at least 15 minutes. Get prompt medical attention.

SKIN: Wash with soap and plenty of water. If symptoms develop, seek medical attention.

INHALATION: Remove to fresh air. If symptoms develop, seek medical attention. If not breathing, give artificial respiration.

INGESTION: DO NOT induce vomiting. Get medical attention immediately. If vomiting occurs, have victim lean forward to reduce risk of aspiration.

An MSDS for this product is available through AMRO's website at www.amroproducts.com, providing 24 hour access. Please read the MSDS carefully and follow all directions when using or handling this product. Never reuse empty containers. Incompatible materials may adversely react.
