Net Contents:

Gelled Graffiti Remover - VOC Free is formulated with licensed, patented technology that quickly works to clean graffiti. This special formula is safer for the environment and the user than other traditional graffiti removers.

- World-Wise Certified
- Bio-Based - From Renewable Resources
- NPE-Free • VOC-Free • Petroleum Distillate Free
- Non-Toxic, Non-Caustic, Non-Corrosive, Non-Acid
- Free of Chlorinated Hydrocarbons

Product works to break through and remove spray paint, permanent marker, inks, lipstick, nail polish, crayon and more.

DIRECTIONS:

Spray onto marks. Wait 3-10 minutes. Remove with clean cloth. If stubborn, repeat application. If accumulation is heavy, remove with scraper, then re-spray. If extreme stubbornness is encountered, use stiff bristle brush and work into the stain. Spray on again—wipe off again. Use clean brush or cloth.

Removing some paints may require longer contact time. May not be as effective on marks that have been on surface for an extended period of time. Use caution when removing graffiti from a painted surface. Try product in a small, inconspicuous area to make sure paint is not removed along with graffiti.

After area is cleaned with **Gelled Graffiti Remover - VOC Free**, use a clean, damp cloth to wipe away any remaining dirt or product.

Safe for use on any metal surfaces and many other hard, non-porous surfaces. May be used on fiberglass, Plexiglas and many plastic surfaces, but it is recommended to limit contact time to 10 minutes. Do not use on hard, clear polystyrene surfaces. This product may soften or craze certain plastics. If surface compatibility is uncertain, test in a small inconspicuous area before use.

Batch#:

HANDLING AND STORAGE: Keep container tightly closed when not in use. Store in a cool, dry, area and prevent from freezing. Allow to sit at room temperature before using product to ensure best product performance.

PRECAUTIONS: Avoid contact with eyes. Do not ingest.

EMERGENCY AND FIRST AID PROCEDURES:

EYES: Immediately flush eyes with water for at least 15 minutes while holding eyelids open. If irritation persists, get medical attention.

SKIN: Wash with soap and plenty of water. If symptoms develop, seek medical attention.

INHALATION: Remove to fresh air. If symptoms develop, seek medical attention. If not breathing, give artificial respiration.

INGESTION: DO NOT induce vomiting. Get medical attention immediately. If vomiting occurs, have victim lean forward to reduce risk of aspiration.

An MSDS for this product is available through AMRO's website at www.amroproducts.com, providing 24 hour access. Please read the MSDS carefully and follow all directions when using or handling this product. Never reuse empty containers. Incompatible materials may adversely react.
